Meeting called to order by Dr. Brian Klostermann at 5:40 p.m.

Cheryl provided a job description used for the 708 Board Administrator from Vermillion county. Discussion was held on the need for someone to take the lead on administering the 708 board. Cheryl provided reasons it should not continue to be the health department. It has its own legislation, levy, and board and it is a conflict of interest to have health department oversee when they obtain funding from 708. A new Public Health Administer may not have the skill sets needed and Cheryl is not aware of any other county where public health has to oversee another department. Salary was discussed and Cheryl suggested looking at what other department heads are making for salary. Rafael will take this information to the personnel committee to discuss.
